"To the Parents Reading This"

- Every recipe in this book is built around dishes kids genuinely enjoy — familiar textures and flavors, with nutrition worked into the recipe itself rather than hidden or forced.
- The sweet treats section is naturally sweetened with fruit, dates, or jaggery, so you can offer them without guilt.

A few gentle reminders as you cook your way through this book:

- ✓ Keep portions small. Little appetites don't need big servings.
- ✓ Offer the same dish a few times before deciding your child dislikes it — taste preferences often take repetition to build.
- ✓ Involve your child in simple prep steps where possible. Stirring, sprinkling, or shaping — it goes a long way in getting them excited to eat.
- ✓ Adjust portion sizes based on your child's age and appetite.

Note: Nutrition values listed are approximate estimates and may vary based on exact quantities and brands used.
